July 7, 2021

Dear Wallington Public School Community:

This letter is to inform you that the District has scheduled two major construction projects for the FW Gavlak School over the summer months:

- FW Gavlak School Parking Lot Improvements
- FW Gavlak School Boiler Replacement

These projects are expected to begin the week of July 12, 2021, and should extend through the month of August. In the interests of safety, building access will be limited for staff and for visitors during July and August to accommodate the equipment, personnel, and type of work being performed. It is recommended that any staff or visitors to the FW Gavlak Building call ahead to set up an appointment by calling the main office at: (973) 777-4420. It is expected that our contractors will be performing site excavation, demolition of existing curbs, paving and striping of the entire parking lot, removal of the existing boiler, removal of accompanying piping, removal of any asbestos containing materials, and the installation of a new boiler and accompanying piping.

This will be a very busy summer indeed at the FW Gavlak School, but I am sure we can all agree that the end result will be a benefit to our district for years to come. Please contact my office or the office of the Board of Education at (973) 777-4151 if you have any questions.

Sincerely,

***James J. Albro***

Dr. James. J. Albro  
Superintendent of Schools
